

Dyyno Video for *WebEx* Meetings

Liven up your WebEx Meetings! Dyyno Video for WebEx Meetings allows you to instantly show high-quality video from your media files, webcam, or digital video camera. Eliminate the headaches and costs associated with live video, do it yourself with the click of a button!

Why use Dyyno Video?

- Conduct more engaging WebEx meetings. Online presentations can be static, monotonous and boring. Add video to your presentation to personalize your sessions and capture the attention of your audience.
- Communicate more effectively. Studies show that visual messages have the most impact on getting ideas across. Use video to get your point across!
- It's cheap and easy, we've eliminate technical barriers and costs to video sharing. You can do it yourself, with no IT, no complicated upload and no waiting.

The Dyyno Video eliminates the need for expensive video streaming infrastructure, production companies, and IT personnel. Save thousands of dollars on costs typically associated with live video streaming, as well as weeks of setup.

Your WebEx attendees will also find the Dyyno Video experience more user-friendly. Because Dyyno Video provides instant video streaming, they will no longer have to download large video files in a time-consuming process.

The only solution that can provide HD quality, seamless video

We've tried and tested our product against leading video collaboration software. Dyyno Video is the only solution that lets you stream video seamlessly and up to HD resolution without choppiness, distortion, and audio/video syncing problems. Our state-of-the-art technology is the most affordable, highest quality video streaming service available today.
